

HULL HOMELESS AND ROOTLESS PROJECT

The Project, which is a Registered Charity, works to meet the needs of homeless people with sensitivity and understanding. They do this by offering 24 hour shelter services, basic needs, a meals programme, mental health assistance and much more. It was the chosen charity of the Deputy Provincial Grand Master, during his year in the Chair of the Humber Installed Masters' Lodge.

The project strives to meet the needs of those who have reached an extremely low point in their lives, often as a result of drug or alcohol addiction. In any given year, between 400 and 600 people are helped by the provision of around 8,000 bed spaces and at least 22,000 meals.

The Humber Installed Masters' Lodge, as a part of the community, is proud to have been associated with Cris Kinkead the Chief Officer and her colleagues at the Project and in just three meetings raised sufficient funds to purchase a computer for client use. Hopefully, this will help to maintain and develop skills which may make the workplace more accessible.
